HELMETS

## MADE & DESIGNED IN EUROPE

**NEXX Helmets are proudly designed and made exclusively in Portugal**

With a thorough understanding of design, technology, craftsmanship and our advanced manufacturing facilities each of our designs is an original.

As a part of our commitment to delivering a WOW factor on every project, NEXX test riders are involved in all project phases from design to first batch, guaranteeing best in class product.

Every year, more than 1,500 helmets are tested internally and externally to destruction to ensure your safety.

DESIGN . RIDE . IMPROVE

**Nexx Helmets** are premium quality motorcycle helmets, beautifully crafted by hand in Portugal. Their quality, performance, style and price has established them as one of the most sought after helmet brands in Europe and North America, and they are now available in Australia.

**Nexx Helmets** are one of the last remaining European manufacturers of motorcycle helmets, with the entire helmet production taking place in Portugal. So why choose to maintain manufacturing in the EU, a highly competitive market with high labour costs? The answer is simple, Nexx believe in having all of their knowledge centralised in one location.

This not only allows them to maintain their unique position, but also as they develop and manufacture their helmets, they have complete control and understanding of their product. Doing everything in house allows them flexibility, speed of response and higher levels of customisation and service.

**Nexx Helmets** have a 160+-strong team of craftsmen and women who are extremely highly skilled in helmet shell sculpture, leather manipulation, stitching, paintwork and engineering. Nexx's strict quality control carries all the way through production. Every helmet has more than 50 control steps, ensuring a perfect product.

Since their birth over 13 years ago, Nexx Helmets have maintained their commitment to safety, design and innovation to quickly become one of the most admired motorcycle helmet manufacturers in the world.

# X.D1

**01 SHELL CONSTRUCTION**  
X-Matrix technology, a process that combines multi-axial fiberglass, 3D organic fibers, special aramid fibers and carbon reinforcement. The result is a super strong and lightweight shell

**02 PANORAMIC EYE PORT**  
Real side-to-side peripheral vision

**03 AERODYNAMIC RIM**  
Designed to control Air stream, reducing lift and turbulence at high speeds

**04 FASTSHOT V2**  
Quick release visor system, extremely simple and light, with new safety lock

**05 VISOR**  
With super lock and Anti-fog Position; prepared for Pinlock Fog-Free lens

**06 X-COM**  
X.D1 is by default equipped to accommodate the NEXX Helmets X-COM Bluetooth Communication System

**07 SUN VISOR**  
With Ergonomic button mechanism that can be operated even in bad conditions with dust, mud etc

**08 AIR DYNAMIC SYSTEM**  
Featuring a chin air intake, two top air intakes and 4 air outlets

**09 PEAK EXTENSOR**  
For Highway or Off road use, adjustable in movement and no tools required

**10 OFF ROAD VENTILATION**  
For extra fresh air in the chin area; included with the helmet

**09 EMERGENCY STRAP**  
Cheek Pads with Emergency Strap System that allows an easy and super quick release in case of crash

**STREET MODE**

**11 SPECIAL CHIN SHAPE**  
To reduce chest injury risk from frontal impacts

**10 ACTION CAMERA & QUICK STRAP SUPPORTS**  
A removable support can be easily inserted in the top of the peak; also on both sides of the helmet there are action camera lateral supports; X.D1 is also prepared for Quick Strap System

**QUICK STRAP SUPPORTS**

**USER OPTIONS**  
X.D1 can be quickly and easily switched - without the need of any tools - between an off-road / adventure touring helmet to street riding full-face; it also offers the versatility of using goggles in dusty conditions

Street

Off-Road

Enduro

**SPECIAL SUPPORTS FOR ACTION CAMERAS**

**dual sport**

The **Nexx X.D1** is a phenomenal success and has beaten many high end competitors and won awards for best adventure helmet overseas. The **Nexx X.D1** is the first Dual sport Adventure model from Nexx and they've got it right first time. Not only is it one of the most competitively priced helmets in this segment, it's packed with features which more expensive alternatives don't have. Most importantly, a retractable sun visor, an essential feature that Adventure riders demand. Additionally for off-road riders, it also offers the versatility of using goggles in dusty conditions. The **Nexx X.D1** is not just an Adventure helmet. The helmet can be quickly and easily switched, without the need of any tools, between an off-road / adventure touring helmet to full-face for street riding or touring.

Most importantly, the **Nexx X.D1** is all about safety! Tear Shaped, the chin area combines a unique shape, with a softer and rounder base edge, to reduce chest injury risk from frontal impacts. Structurally the **Nexx X.D1** is made with Nexx's new X-Matrix technology, a process that combines multi-axial fibreglass, 3D organic fibres, special aramid fibres and carbon reinforcement. The result is a super strong and lightweight shell, one of the lightest on the market in fact, plus 35% stronger for extension and bending resistance than normal fibreglass.

The **Nexx X.D1** is equipped to accommodate the optional Nexx Helmets "X-Com" Bluetooth Bike-to-Bike Communication System, developed in cooperation with the renowned Bluetooth company Sena. This makes the X-Com fully compatible with Sena Bluetooth systems as well as a wide range of other Bluetooth v3.0 Universal Communication Systems. Another unique feature of the **Nexx X.D1**, is that it comes with the options for accommodating helmet cameras; a removable support can be easily embedded in the top of the peak, plus there are helmet cam supports on both sides of the helmet. The **Nexx X.D1** is also prepared for the Quick Strap Goggle System, plus it comes with a Pinlock anti-fog insert as standard!

### Nexx X.D1 Specifications:

- Dual sport helmet; easily switch between off-road/adventure touring helmet to full-face street riding
- X-Matrix shell of carbon, kevlar, fibreglass and 3D organic fibres
- The X.D1 is ECE/22-05, DOT and NBR homologated by Nexx.
- 80% tint, retractable sun visor
- Pinlock anti-fog visor supplied with the helmet
- Three bespoke camera supports, to easily affix your helmet cam, one on the top and one on each side of the helmet
- Aerodynamic Shell & Rim
- Shell available in 2 different sizes: Shell 1 (XS-M) | Shell 2 (L-XXL)
- 2 air inlets and 4 rear outlets for excellent air flow across the top of the head
- Ventilation channels in the EPS lining for effective flow away from the ear area
- Emergency release, removable cheek pads
- PC Lexan Shield Clear with Anti-Fog position and Super Lock
- FastShot quick release visor system
- Panoramic Eye Port
- CoolMax, soft anti-sweat and anti-allergic fabric inner lining
- 3D Inner Lining, removable and washable
- Anti-noise Cheek pads
- Chin Windstopper
- Removable breath guard
- Double D-ring to secure
- New Block'N'Seal Visor System (with dual resistance visor) and X-SWIFT Quick Release System
- Night vision reflectors
- Special Chin Shape to reduce breast injury risk from frontal impacts
- Ergo Padding System for bespoke fit

THE REBIRTH OF FREE SPIRIT

NEXX  
HELMETS

× *Special  
Collaboration* ×  
WITH

MARIA  
RIDING COMPANY

**THE REBIRTH OF FREE SPIRIT**

Introducing the brand new **Nexx X.G100**. Bar none, this is the coolest full face retro lid on the market! Take everything you know about motorcycle helmet design and throw it out of the window. The design of the **Nexx X.G100** is as unconventional as the people who wear it. Designed not in boring offices, but inspired by tales of the past, special stories of motorcycling and riding without boundaries. The **Nexx X.G100** is a perfect match for your scrambler, cafe racer, custom, cruiser or naked. Choose how you wear it!

But the **Nexx X.G100** isn't all about all style at the expense of safety. The shell of the **Nexx X.G100** Retro Full Face is made from a deliberate blend of carbon fibre, kevlar, fibreglass and organic fibres, called the X-Matrix. This makes the helmet 10% lighter than one with an equivalent fibreglass shell and weighing in at just 1200g it feels super light on your head and in your hands. The X-Matrix shell is also a whopping 35% stronger than a fibreglass shell.

Taking classic moto styling into the 21st century, the **Nexx X.G100** Helmet oozes vintage style yet offers superb protection and performance. The X-Matrix shell delivers outstanding strength combined with weight savings not previously seen in a retro full face lid. The premium shell is complimented with a chin vent and a super soft removable X.Mart Dry fabric liner for ultimate riding comfort. Nexx has even thrown in an old school 3-snap peak visor and removable 60% Smoke PC Lexan shield. The visor secures to the helmet using the supercool studs on the sides of the shell and the peak uses the three studs just above the visor port.

Alongside the X-Garage range of **Nexx X.G100** models, for 2016 Nexx have had added the Limited Edition "Maria Range" of graphics designed in a special collaboration between Nexx and the Maria Riding Company (MRC). This well-known Portuguese custom bike builder has used its expertise in design to create some of the most visually arresting designs available on any helmet, anywhere. Combining MRC's talent for creativity with Nexx's experience in producing some of the best motorcycle helmets in the world, they've produced the "Maria Range" of Limited Edition Graphic retro designs, the Muddy Hog, Bad Loser, Drake and Tokko.

### Nexx X.G100 Specifications:

WITH

MARIA  
RIDING COMPANY

This season sees the exclusive collaboration between NEXX Helmets and the fashion and lifestyle brand Maria Riding Company coming to life.

United by a passion for Design and a Free Spirit, the brands have worked together to create a unique Collection that combines the culture and creativity of the iconic brand Maria Riding Co. specialized in motorcycles, skateboards and surfboards with NEXX's best-in-class design and engineering.

Taking the best of the past, the result of this union is a one of a kind Collection, with iconic retro style helmets, made for unconventional people.

### NEXX X-COM BLUETOOTH BIKE-TO-BIKE

This is the new, upgraded version of the Nexx X-Com intercom, with the additional antenna which slots neatly into the cavity between the shell and EPS layer on the X.D1 helmet. The X-Com has been developed with leading Bluetooth company Sena, to specifically fit the Nexx X.D1 helmet. Together with the Nexx X-Com intercom, this provides you with an adventure or touring helmet complete with v3.0 Bluetooth intercom, for easy communication with your pillion, riding mates, or for use with your Bluetooth enabled smartphone and GPS.

The Nexx X-Com allows for four-way conferencing through the intercom system, or three way conferencing with an intercom participant plus a phone call participant. It's ultra slim and light weight, plus it fits into the cavity pocket in the side of the Nexx X.D1 helmet, making it easy to reach and doesn't interfere with the aerodynamics of the helmet.

***In normal conditions, the intercom will operate up to 900 metres.***

#### Nexx X-Com Specifications:

- New 2nd generation X-Com, with additional antenna which slots neatly between the helmet shell and EPS layer
- Utilises Bluetooth 3.0 technology 
- Intercom range of up to 900 meters
- Use hands-free with Bluetooth enabled mobile phones
- Bluetooth stereo headset for Bluetooth audio devices such as MP3 players
- Pair with Bluetooth GPS navigation devices
- Four-way conference intercom
- Three-way conference phone call with intercom participant
- Speed dialling
- Integrated audio booster
- Water resistant for use in inclement weather
- Crystal clear and natural sound quality
- Can be used while charging on the road
- Multipoint Bluetooth pairing with GPS navigation
- SR10 Two-way Radio Adapter
- Multipoint Bluetooth pairing for 2 mobile phones
- Light weight and ultra slim profile
- Firmware upgradeable
- Two year warranty
- Supporting profiles: Headset Profile, Hands-Free Profile (HFP), Advanced Audio Distribution Profile (A2DP), Audio Video Remote Control Profile (AVRCP)

Take a soft measuring tape and put it around your head, approximately 3cm above your eyebrows and just over your ears so that you can get the largest measurement of your head in cm. Measure it a couple of times so you can get an average and consistent size for your head.

Look at the helmet size chart to see where the measurement of your head correlates with the internal size of the motorcycle helmet.

Helmet Size	Head Size	X.D1	X.G100
<b>XXS</b>	51/52 cm 20,06 - 20,47 in	—	—
<b>XS</b>	53/54 cm 20,87 - 21,26 in	•	—
<b>S</b>	55/56 cm 21,27 - 22,05 in	•	•
<b>M</b>	57/58 cm 22,06 - 22,83 in	•	•
<b>L</b>	59/60 cm 22,84 - 23,62 in	•	•
<b>XL</b>	61/62 cm 23,63 - 24,41 in	•	•
<b>XXL</b>	63/64 cm 24,42 - 25,20 in	•	—
